#### UPCOMING EVENTS

---

YAPPY HOUR- The last Sunday of the month where people and pets get together to GET SOCIAL!

September 28th: September Yappy Hour will kick off the new season as we settle in to our new FALL hours from 3-5 pm. There will be dog agility team tryouts and a PHOTO BOOTH for you and your dog! Do you look like your dog? Does your dog have your mannerisms? We are hoping to find the best "Look-A-Like" in our pet/owner contest. Don't worry, there will be some honorable mentions. Refreshments will be on-hand in our membership booth and we will be selling dog clothes and costumes for Halloween for a donation. Come join us!

October 26th: Our favorite doggie holiday- sort of! HOWL-oween! What will your dog be donning this year? We have 14 awesome prizes/gift bags to give out this year and we are adding some new categories! Start training because our 9th year of the peanut butter lick-off always gets the dogs smacking! Save the date, because we will be revealing our category list soon.

July Yappy Hour Recap

At our July Yappy Hour, which was entitled Bow Wow Luau and Membership Drive, we had great  
attendance. The volcano, surf board and Tiki bar backdrop for the photo booth, along with the grass  
skirts, Hawaiian leis and coconut bikini tops made all the pups smile in their picture. Mallory and McCall  
were also on hand with their handmade items. For every new or renewed membership, dog owners

were entered into a drawing for prizes.

Five winners received either "beat the heat" splashy pools donated by Toys R Us, or dog treat gift bags.

It is still not too late to sign-up or renew your membership. Dues support events at the park such as Pet Education Seminars, and mobile Spay/Neuter clinics. Dues are \$10 for one year, and help pay for bio-degradable poop bags at the park and fund pet adoption events. To support the park, please visit our website [www.hermondogpark.org/join.html](http://www.hermondogpark.org/join.html) <http://www.hermondogpark.org/join.html>.

## 7 **The Biggest Back to School Inclusion Fair and Backpack Give-A-Way in**

Fri Aug 22, 2014 12:03 am (PDT) . Posted by: [asncaalert](#)

Special Needs Network Proudly Presents...

The Biggest Back to School Inclusion Fair and Backpack Give-A-Way in L.A.

Hosted by the Los Angeles Dodgers, Sponsored by Bank of America

Special Needs Network, Inc. (SNN), California's leading grassroots autism advocacy organization, in collaboration will host the 9th Annual Back 2 School Health + Resource Fair from 2 to 6 pm on Sunday, August 31 at the Dodger Stadium Pavillion. Aimed to provide relief to families under financial pressure who may find it difficult to purchase back to school materials, We are committed to distribute over 2500 backpacks filled with supplies like pencils, notebooks, and more.

"We began Back 2 School to provide underserved children and youths with the tools essential for school success," said president + co-founder Areva Martin, Esq. "Today, we address not only academic needs, but health and wellness as well."

Back 2 School is the biggest inclusion healthcare + resource fair in Los Angeles for children with developmental disabilities and their families. The event will bring out resource vendors to provide families with medical, dental, developmental, and mental health screenings, pro bono legal clinic, and educational workshops on a range of topics from harnessing the power of social media, to improving your overall health and wellness through daily exercises, and more.

In addition to the signature backpack giveaway, Back 2 School will also feature fun activities including rock climbing, arts and crafts, pony ride, bouncy house, gaming stations, live music, and surprise celebrity guests. Additionally, there will be a raffle that will include the latest Tablets and more.

"This is one of the country's most innovative event and a much-needed part of the Los Angeles community," said Chairman of the Los Angeles County Board of Supervisors Mark Ridley-Thomas

Each year, Back 2 School provides a fun and inclusive setting that brings developmentally disabled children together with their typical peers for an exciting afternoon filled with family-friendly fun and critical socialization.

Additional, but limited amount of back-packs will be available on-site for those not registered.  
(While Supplies Last)

**NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION FOR  
TAYLOR YARD RIVER PARCEL G2 PROJECT**

- State Clearinghouse No. (SCH#): Pending Assignment by OPR -

Pursuant to the State of California Public Resources Code Article 7 of the California Environmental Quality Act (CEQA), as amended, the City of Los Angeles Bureau of Engineering has prepared an Initial Study for the project described below. Under CEQA, the City identified no significant impacts and proposes to adopt a Mitigated Negative Declaration.

**Project Location:** The project site includes the approximately 41-acre Taylor Yard River Parcel G2 (2070 North San Fernando Road). Refer to map on next page for project site. The project site is located approximately three miles north of downtown Los Angeles in the community of Cypress Park and Council District 1 area of the City of Los Angeles. The project site is located in the vicinity of the Los Angeles River.

**Project Description:** The City of Los Angeles (City) is proposing a project that would assist in improving water quality in the vicinity of the Los Angeles River, and would support the City's efforts to comply with

current and future Los Angeles River Total Maximum Daily Load (TMDL) requirements for trash, metals, and bacteria. The proposed project would comply with Proposition O funding criteria. Site remediation activities, and the implementation of water quality improvements, and parkland and open space facilities would be included with the proposed project. The proposed project would be implemented in two phases.

**Phase 1 – Demolition and Remediation:** Phase 1 includes the demolition of all remaining above-ground structures on the entire project site, with the exception of any utility and other easement areas. To properly remediate the project site, the City would consult with the California Department of Toxic Substances Control (DTSC) to achieve a level of site and site remediation that is safe for public access. A Remedial Action Plan was previously prepared for the project site and would be subject to additional revision and approval by DTSC as applicable to support the approval of the project. An approximately 10-acre portion of the project site would be remediated to applicable standards for recreational use. The remaining approximately 31 acres would be remediated to standards for industrial use.

**Phase 1 – Water Quality Improvements and Parkland and Open Space:** Phase 1 also includes the implementation of structural best management practices (BMPs) as part of water quality improvements would potentially include the diversion of the dry-weather and a portion of wet-weather stormwater flows in the project vicinity conveyed onto the project site, as well as hydrodynamic separators at stormwater inlet points. In addition, BMPs may also include the construction of natural treatment systems such as, surface and subsurface lateral infiltration and storage, bioswales, bioretention areas, and water quality treatment wetlands. The installation of water quality treatment wetlands would also function as habitat for wildlife. Upland habitat compatible with riparian habitat would be constructed. Permeable paving and green street elements along parkland and open space access and maintenance routes may also be AN EQUAL EMPLOYMENT OPPORTUNITY EMPLOYER Recyclable and made from recycled waste.

incorporated. Treatment of on-site dry-weather and a portion of wet-weather flows may be integrated into appropriate natural treatment systems, as feasible.

Following the construction of the water quality improvements, passive parkland and associated facilities, and open space would be constructed. The construction of parkland and open space may include bicycle paths, pedestrian trails that incorporate grade separated crossings, educational signage, security lighting, promenades, native streetscape plantings, themed street furniture, integrated stormwater management elements, planting and landscaping, and other Los Angeles River Revitalization Master Plan (LARRMP) amenities. In addition, an irrigation system and perimeter fencing would be installed. A small, 10-parking-space surface lot would be constructed.

**Phase 2 – Future Phase:** Under Phase 2, the development of the approximately 31 acres would occur once the appropriate future land use is identified. Further environmental analysis, including subsequent project-level CEQA compliance may be required. Development of the entire approximately 41-acre site is subject to consultation with DTSC. In addition, the Remedial Action Plan that was prepared for the project site would be subject to additional revision and approval by DTSC as applicable to support the approval of the project.

Mitigation measures have been included in the Mitigated Negative Declaration to ensure that any impacts are reduced to less than significant.

This notice is intended to give interested parties an opportunity to comment on the proposed project.
